## **Embodiment**

### **Psalm 139:13-16**

*For each of us, being created in the image of God is a process that begins long before we are born. God's specific design for each of our physical bodies to fulfill his specific and individual purposes on this world is being implemented \_\_\_\_\_.*

**Discussion 1. Is it enough to know that God designed your physical body for specific purposes in this life? Why might it be important to you that this intelligent design process was going on even while you were still in the womb?**

*Our physical bodies come pre-wired with a soul which yearns to \_\_\_\_\_  
\_\_\_\_\_. It is quite literally something we were created to do.*

**Discussion 2. Does the concept of our physical bodies being prewired with a soul that yearns to worship God resonate at all with anything you have ever felt or experienced on a personal level? If so, can you describe that feeling or experience?**

*The \_\_\_\_\_ of our human bodies even before we are born has been God's plan from the beginning of time. In this wondrous way, He engineered the very first human bodies and every human body since.*

**Discussion 3. Why does it matter that God put as much thought and intentionality into forming your body as He did in forming Adam? What, if anything, does that teach you about God?**

*God knows \_\_\_\_\_ of everything that will happen to us in this life and designs and forms our bodies with all of that knowledge in mind. Who could possibly be better able to perfectly design us than Him?*

**Discussion 4. Can you think of any circumstances in your life, any relationship or occurrence at all, that make you glad God gave you the body He gave you? Can you remember, perhaps as a child or a teenager, wishing for a different body? Are you glad now you didn't get it? Why or why not?**
